

Another girl, another way close
why do I ask the way?
I often think about the place
when I saw you in the "Gray".

S

I'd give you what you want
if ~~when~~ you show me the way of life
you don't need you to justify
only come on and join the juve!

S

To the force of unity...
black and white...
our life is only fantasy...
just think the way is right!

R

Gone into the underground
at a missed Friday night
"BLUE ADAM" oscillations in my body
turned me up into the light.

S

Influence of memories
the future and the past
in the endless universe
my life is just a cast.

S

Let the rhythm move your feet
to the bumpin' beat and bass
suddenly you turned around
and I saw your lucky face.

S

To the force of unity...
in the blackness night...
it's my love and serenity...
don't think life's just a fight...
